

# BOSS X-Series

The ultimate range of push around  
micro powered access platforms

Edition 1:2010

EN 280

IP24

# BoSS X-Series

● Auto braking on fixed castors

The BoSS X-Series is the new tough, professional, manually propelled range of micro powered access platforms from the Youngman Group, one of the world leading suppliers of innovative work at height solutions. Designed for a multitude of tasks including general maintenance, cleaning, painting, and fit and strip out work they can be used on construction projects, in factories, transport environments, shopping centres, retail outlets and in offices and offer numerous features and benefits:

● Fits through standard doorways and into passenger lifts

● Self closing gate with locking latch and transit gate lock

- Tilt sensor; no stabilisers required
- Platform overload and pressure loss valves
- Safety cut out on descent
- Audible alarm on descent

● Slip resistant deck incorporates lanyard point

● Safety and usage instructions mounted on guardrail

- Secondary emergency stop button mounted on base
- Emergency platform lowering mechanism
- Gate incorporates toeboard removing trip hazard
- Heavy duty powerpack, battery charger and battery
- Pull out storage drawer for cables and guardrail tools
- Wide forklift entry, hoisting and transit strap points
- Smooth roll castors with non marking tyres

● Platform mounted handset control with emergency stop

● Fail-safe props for deployment during maintenance

● Anti static earthing strip

● Rigid and robust box section scissors

● Winching eye

● Serviceable components in slide out compartment
